Indicator
Summary of the content moderation engaged in at the providers' own initiative
Meaningful and comprehensible information regarding content moderation engaged in at the providers' own initiative
Qualitative description of the automated means
Qualitative description of indicators of accuracy and possible rate of error of automated means
Specification of the precise purposes to apply automated means
Safeguards applied to the use of automated means
High-level description of the content moderation governance structure
Qualifications of the human resources dedicated to content moderation
Training given to human resources dedicated to content moderation
Support given to human resources dedicated to content moderation
Methodology used to compute the number of human resources dedicated to content moderation

Value
LiveKit is a real-time communications service that transmits and, where a customer enables features such as recording or egress, stores information (audio/video content) provided by, and at the request of, the customer. LiveKit does not operate a public-facing platform, does not host a public content feed, and does not recommend, rank, or disseminate user-generated content to the general public. During the reporting period, LiveKit did not engage in own-initiative content moderation of the communications transmitted through the service and no visibility, monetary, service, or account restrictions were applied on
LiveKit does not proactively scan, analyse, or monitor the content of the real-time audio, video, or data streams, and it does not deploy automated detection systems (such as classifiers or hash-matching) against that content. Where LiveKit becomes aware of allegedly illegal content or misuse (for example through an order, a notice, or an abuse report), it reviews the matter manually and may act at the account or customer level in accordance with applicable law and its Terms of Service.
Not applicable. LiveKit did not use automated means for the purpose of content moderation during the reporting period.
Not applicable. As LiveKit did not use automated means for content moderation, no indicators of accuracy, precision, recall, or rate of error are available.
Not applicable. LiveKit did not apply automated means for content moderation during the reporting period.
Not applicable. As no automated means were used for content moderation, no related safeguards (such as human review or automated decisions) were required during the period.
